

NOVELTIES SPRING 2025

HALFAR

Best of Bags.

RECYCLING, REVOLUTIONS AND REALLY GREAT IDEAS FOR BAGS

Just like you, we love sustainability. And our new products for 2025 are made almost exclusively from recycled materials, whether soft felt or shiny synthetic rPET fibres.

Plus, there's a real revolution upon us – the 'MONO Shopper' made from just one material. It's another important step towards the circular economy. With this aesthetically pleasing knitted shopping bag, we can show just how well fashion can pair with responsibility.

Speaking of pairs and things going together: you can look forward to new series and completed families of your favourite bags. To cooler bags for your bicycle and backpacks for your laptop. To powdery pastel tones and innovative Airtag compartments. To surprisingly affordable backpacks and amazingly compact thermal shoulder bags. And to a wealth of ideas for how bags can become a platform for brands and ideas. Have fun with our new developments!

Your HALFAR® Team
