

PRODUCT - DATASHEET

GENERAL PRODUCT INFORMATION

Article number	1816503
Article name	cooler backpack TREND
Brand	HALFAR®
Description	large, modern cool backpack; top with two-way zipper on three sides ideal for packing; large main compartment; zipper mesh pocket for cold packs inside; outside top zipper compartment; large front pocket with 2-way zipper; padded back; padded adjustable shoulder straps; handle
Item dimensions W/H/D in cm	30*42*15
Item weight in g	375
Main material	Polyester
Volume in l	17
Pieces in carton	20
Carton dimension W/H/D in cm	42*46*52
Country of origin	CN
Customs tariff number	42029291900

PRODUCT SUSTAINABILITY

Special feature	suitable for contact with food,PVC-free,part of a bag series,temperature retentive
Certification	-
Sustainability score	A+

Assignment to the Halfar Sustainability Score: **plus repair service, see manufacturer's information*

A	✓ brand product ✓ durable in its product class ✓ harmless = tested materials ✓ functional ✓ CO₂-compensated according to "cradle to customer + waste" approach [https://climate-id.com/de/G765H1]
A+ All criteria as in A plus other sustainable characteristics	✓ PVC-free - with/from conventional renewable raw materials - Standard OekoTex 100 - made of mono-material
A++ the items in this category have sustainability criteria that go beyond levels A and A+, e.g. certificates that include supply chain factors.	- with / made of recycled materials [GRS] - made of organic cotton [GOTS] - Fairtrade

The production of our bags causes emissions that we cannot completely avoid through optimization measures. For these unavoidable emissions relating to our stock program, we make a financial contribution to climate protection and in this way support climate protection projects, especially in the countries where our products are manufactured. This means that these emissions are already offset when you purchase a HALFAR® bag from our stock range from our warehouse in Bielefeld. You can read more about offsetting unavoidable product emissions [here](#).

PRODUCT INFORMATION		
Article number	1816503	
Article name	cooler backpack TREND	
Customs tariff number	42029291900	
Country of origin	CN	
Main material	Polyester	
Item weight in g	375	
CO ₂ -Emissions per unit in kg	6,66	
Values calculated by Climate Partner on the basis of the „Greenhouse Gas Protocol Product Life Cycle Accounting and Reporting Standard “(GHG Protocol)		

System boundaries and methodology for determining CO₂ values. The values were calculated using the cradle-to-customer plus end-of-life approach. The product emissions stated here are based on the company's CO₂ balance for the year 2024, with product-related emission categories allocated to this product on a pro rata basis. The calculation therefore represents an average footprint based on the year 2024 and covers the following life cycle phases of our articles:

- the extraction of raw materials and packaging,
- the corresponding logistics processes,
- the manufacture of the product,
- the corresponding disposal emissions of the product and packaging

If you have any further questions, please do not hesitate to [contact us](#).

	By the way: Halfar System is a ClimatePartner-certified company This means that we have calculated our greenhouse gas emissions, defined reduction targets, continuously implement reductions and finance climate protection projects. With the ClimatePartner-certified label and the associated Climate ID website, we communicate transparently about these steps.
