READY FOR SUMMER?

Rising temperatures, balmy summer nights, ice lollies and lots of time by the sea or bathing lake. Everyone has their own definition of a perfect summer. And to make sure you're ideally equipped for every summer activity, whether with friends or family, we've picked out our best for your summer.

The selection ranges from small to large cool bags, from practical backpacks to classic beach shoppers. Fresh colours and a variety of functions make you want to enjoy the summer temperatures.

And even if the weather doesn't cooperate 100% or the summer holiday can't take place as planned, you can still bring summer home with every single bag.

The name says it all - because a whole lot goes in here. The cool bag offers enough space to keep drinks cool or to organise a trip to the local swimming lake for the whole family. The mesh compartments and the slip-in pocket also offer additional storage space and, like all cool bags, the bag is of course food-grade.

All good things come in fives - that's exactly the number of 1-litre bottles this cool bag can hold. And because this adds a lot of weight to the bag, it also has a length-adjustable shoulder strap in addition to the carrying straps. So it offers a variety of carrying options for the way to the beach or the next bike ride to the lake.
