

STEP BY STEP
to your bag

HALFAR
Best of Bags.

For your special purpose – HALFAR® is one of the leading bag manufacturer, for e.g.:

| EMERGENCY BAGS

| STRAPS AND STRAP SYSTEMS

| TOOL BAGS

| PROTECTIVE BAGS AND PACKAGING

CONCEPTION

Our close collaboration with the customer means that their wishes and requirements constantly remain the focus during the development of their bag. We **jointly develop** a concept and create prototypes before entering the sample phase, and finally bag production. In this way, we **create individual solutions** for our customers for their very specific challenges.

Sample: Device bag for defibrillator

STEP BY STEP

Following the initial designs, we usually produce a dummy, which you can use to check whether your expectations have been met. We will also be happy to create initial samples in line with your ideas.

Sample: Device bag with foil window

THIS IS HOW WE DEVELOP OUR BAGS

01 // Advice

Why do you need the bag? Design? Deadlines? Quantity? Budget?

02 // Dimensioning

Bag contents, original devices, accessories etc.

03 // Design

The first idea of the bag is often created on paper.

04 // First dummy

Starting by modelling.

05 // Modelling

We test materials and cuts.

06 // First prototype

A general sample. Do you like it? Modifications?

07 // Testing

Do the material and intended use fit together? Does everything fulfil your requirements?

08 // Manufacturing

Series production begins.

09 // Logistics

Storage and Transportation

Sample: Trolley for oxygen generator

HALFAR® – THE BAG EXPERT

For more than **30 years**, we have been developing, producing and distributing bags and backpacks – with great passion.

In our business area for **promotional bags**, everything revolves around bags and backpacks as promotional items, customer bonuses and merchandising items. Our **special bags are tailor-made** bags and belt systems, for example **for technical equipment** which are customised to specific requirements. As a result, HALFAR® has developed into a brand which represents exceptional quality, creativity and comprehensive customer services.

CUSTOM-MADE

As a specialist in functional and device bags, we offer you all services from one source: **design, conception, sample construction, production and logistics**. Depending on the quantity and timescale, series production of your functional bag takes place at European partners, in Asia or at our headquarters in Bielefeld. When it comes to logistics, we support you, the customer, with solutions for storage and needs-based transportation. Just ask us – we would be delighted to show you current reference projects **for functional bags**.
